Every year, Heritage Park Zoological Sanctuary receives over 250 rescue animals. Many of these animals are injured or orphaned wildlife. This package will give you the opportunity to help support this program, the chance to come in and help feed and care for some of our rescue animals, the opportunity to name the rescued pronghorn fawn that arrived in June, and exclusive invitations to the release of rehabilitated animals back to the wild. No specific animal experience is guaranteed as HPZS staff is never sure what kind of rescue animals will come through the doors.
